

MORBARK® BEEVER™ M20R TRACK

BENEFITS

- Increase efficiency by taking the chipper to the material with a two-speed, steel track undercarriage with 4.24-PSI ground pressure
- Seamless track drive operation with IP67 rated wireless radio remote control operation with tethered back-up system
- Morbark Integrated Control System (M.I.C.S.) automatically adjusts feed rates and pressures to optimize production and engine efficiency with remote diagnostic capabilities
- Ideal unit for: Entry-level biomass production, lot and land clearing contractors, contractors and large tree services. Also available in Trailer, and Loader configurations

TRACK UNDERCARRIAGE
Caterpillar 312B track drive system

REMOTE CONTROL
15-function radio remote control with tethered back-up system

INFEED OPENING
28" wide infeed opening provides straight, flow through material passage

BEARING STYLE PIVOT ASSEMBLY
Bearing style pivot assembly contours the radius of the drum

SPECIFICATIONS

Note: Specifications may vary with equipment options

06092010

GENERAL

Chipping capacity20"
 Length 20'4"
 Height (Adjustable).....9'-10'
 Width8'6"
 Gross weight 18,240 lbs.
 Infeed opening.....65" wide x 43 1/2" high
 Throat opening28" wide x 20 3/8" high
 Drum28 1/2" wide x 37 3/8" diameter
 Engine..... CAT, Cummins, or John Deere
 Horsepower.....325-350 HP
 Fuel capacity (tank) 65 gallons
 Hydraulic oil capacity..... 43 gallons
 Frame.....2" x 8" tubular steel
 Tracks CAT 312B Track System
 Morbark Integrated Control System

EQUIPMENT HIGHLIGHTS

Caterpillar 312B Steel Track Undercarriage with 500mm grouser pads and two-speed travel functions
 15-Function Wireless Radio Remote Control operation with tethered back-up system controls the track functions, feed functions, yoke functions, throttle functions and hydraulic swivel discharge operation
 5' Rigid Infeed Deck with (2) strands of WDH-110 welded flight chain to assist in carrying material to the feed wheels
 Feed stop switch located near the infeed
 Combination tool box and battery box compartment
 Integrated bolt-on hitch receiver plate capable of in-woods towing
 AR-400 Wear resistant steel in critical wear areas
 Morthane Paint System: A chemically cured, electrostatically applied urethane coating with high gloss finish, built in UV protection, chip and chemical resistance and corrosion protection

ADDITIONAL FEATURES

Chipper belt inspection cover
 Hydraulic tank inspection cover
 Steel guard enclosing valve bank and auto-feed components
 360° Hydraulic swivel discharge with adjustable chip deflector and turnbuckle discharge height adjustment

OPTIONS

Forestry Discharge and feed wheel
 Babbit style knives
 Custom paint and logo packages
